RESOLUTION:

(this resolution was carried by LNP Noosa SEC on 25-3-13 and LNP Wide Bay FDC on 13-4-13)

SUPPORTING MATERIAL: (maximum 300 words)

Devised as an important tool in promoting the socialist objectives of the United Nations 1992 Earth Summit, chaired by the now infamous Maurice Strong, Agenda 21, a thirty (30) chapter 'Fabian Socialist Manifesto', was released as part of what is known as the Rio Declaration and camouflaged by some admirable environmental objectives.

Agenda 21 was accepted and subsequently promoted by most Western governments of all political persuasions. While understandably consistent with the policies of socialist (particularly Fabian) controlled governments, it is logically incomprehensible that any politically conservative government could support and promote a well documented scheme that sets objectives to achieve abolition of property rights, redistribution of wealth, and implementation of global governance.

However that has happened in Australia without legislation. The Liberal –National Coalition has never formally advised the public of the grave potential hazards of Agenda 21 (commonly called Sustainable Development). Rather, it has given particular support for implementation of 'Local Agenda 21' (LA21) by municipal councils through their progressive introduction of regulations guided by the 'A21 sustainable development manifesto' – revolution by regulation.

This is a shamefully wrong situation for the Coalition to find itself in. It should be corrected. Hence, this resolution.
