Dear Prime Minister Malcolm Turnbull,

We write to request, do not sign any agreement with the UNFCCC, the IPCC or the EPA at COP21. We write to put the case for exercising restraint when dealing with these UN organisations. This message has been sent to about 2500 Citizens of the world.

The evidence indicates that these organisations have a fraudulent ideology. As the links below reveal, these organisations appear to be controlled by some individuals who use untrustworthy methods to further a hidden agenda. Their agenda is for the United Nations to rule the world as an unelected global government. <http://www.climatechangedispatch.com/un-climate-chief-communism-best-for-fighting-global-warming.html> They are manipulating a small group of pseudo-scientists who have succumbed to Lysenkoism. <https://en.wikipedia.org/wiki/Lysenkoism>. The evidence indicates that the whole global cooling/warming/climate-change scam is predicated in their deceit.

The Coalition of Parties is now meeting with these people to discuss two supposed threats to life on our planet.

First will be a stakeholder driven discussion. It will be about unworkable solutions to a non-existent problem, supposedly associated with the tiny, tiny amount (< 3%) of atmospheric CO₂ that is created when humans burn fossil fuels.

Secondly, as a response to the recent events in Paris you have stated that COP21 will also now address terrorism. Do not allow Australia to be dragged into an ideological war via Islamo or Russio-phobia. Distant, and recent events indicate that some of that phobia may have been deliberately manufactured as a result of coalition between willing parties.

Remember the non existent Weapons of Mass Destruction that were the excuse for the Coalition of the Willing to instigate war on Iraq. How many innocent people died, and what did it achieve?

As two independent scientists we respect the evidence in the links above. It is the truth, and the truth will prevail. If there is anything we have said here, or in the earlier letters and posters referred to above, that you think is untrue please click 'reply all' and inform us. Over the last few years neither your office, or that of Minister Hunt have ever, formally, responded to our very public enquiries. Therefore we assume that your continued silence indicates your acknowledgment of the truth as we have reported it to you. Why do you not act upon it?

Political stability will not return to Australia until we have a leader of a team which is prepared to investigate the crime of Lysenkoism in our country. We will not rest until, what the evidence indicates is crime, is exposed and its perpetrators held individually accountable. We will not rest until, as the evidence indicates, those who turned a blind eye to the crime and protected and financially subsidised the criminals are also held accountable. As Independent scientists we are strong. We are ethical; and we are smart enough to realise that this is the only way to keep the wolf at bay.

Respectfully Yours

Dr Judy Ryan
