Dear Dr Finkel,

I write to express my disappointment. I realise that you are a very busy person and maybe that is why you did not attend the Public Forum regarding the questionable accuracy/veracity of climate data produced by institutions such as the Australian Bureau of Meteorology.

As I did not get the opportunity to discuss the issues addressed in my earlier letter

<http://www.galileomovement.com.au/docs/jr/LetterToChiefScientist.pdf> I now offer to come to your office and interactively present these posters to you and your staff. It is your choice as to whether we have media attendance or not.

<http://www.galileomovement.com.au/docs/jr/SystemGeneratedFakeData-2.pdf>

<http://www.galileomovement.com.au/docs/jr/NonInteracticePosterForDecember1931.pdf>

I would also like to present other posters. For example this one shows that during the 1970's the MSM was reporting that human emissions of Carbon dioxide would cause global Cooling!

<http://www.galileomovement.com.au/docs/jr/GlobalCoolingAlarmismInThe1970s.pdf>

The second poster based on Trofim Lysenko, is just one example of scientific fakery that has occurred throughout history.

http://www.galileomovement.com.au/docs/jr/Lysenko_V2.pdf

Science used to be an honourable discipline, based on the Karl Popper method of falsification. However, the evidence clearly shows that in the field of 'Climate Science' it has descended into pseudo-science, based on the demonisation of a life essential, trace gas, carbon dioxide. We now have three generations of Australians who have been educated according to this subversive, pseudo-science based curriculum. Consequently, our politicians can no longer make informed decisions.

To conclude on a brighter note, in the age of the internet this scientific fakery will be exposed and the people will hold its perpetrators individually accountable. The evidence is the truth. The truth never changes and it will never go away. So please, Dear Chief Scientist help the people restore scientific integrity ASAP.

Respectfully yours
