

Without the minuscule amount of CO₂ that we have in Earth's atmosphere we would all be dead. There would be no plant life, therefore no *FOOD*

To sing along with other lovers, copy/paste these words into your browser "Chris & Cliff's song about photosynthesis" If that doesn't work type this http://bit.ly/Chris_Cliffs_song

To see the moving response to heightened levels of atmospheric CO₂ do the same with these words. "I love CO₂ - Youtube"

Don't forget to include the quotation marks. It helps eliminate the effluent.
