Dear Prime Minister Malcolm Turnbull, Minister for the Environment Greg Hunt and Minister for Foreign Affairs Julie Bishop

Respectfully, we raise the following issues for your consideration.

On September 7th, 2013 the Australian people voted in the Abbott Liberal Coalition government. As opposition leader, Tony Abbott promised to rid Australia of the "human caused global warming" aka "climate change" scam-based taxes. That was the major reason for his resounding victory. <http://www.abc.net.au/news/2014-07-17/carbon-tax-repealed-by-senate/5604246> He kept his promise and was a good, strong, ethical Prime Minister for the short time that we had him.

Under the Turnbull Government Australia's already fragile representative democracy has stepped ever closer to socialism

under the rule of the United Nations. <https://www.youtube.com/watch?v=NG0WcjGHkEw>

Tony Abbott once stated "the Australian people are sick of being lectured by the United Nations". He was absolutely correct. We, including the silent majority who now see the scam, say strongly "No Thanks" to the United Nations' offer of global socialism.

We refer you to this letter. <http://www.galileomovement.com.au/docs/jr/1.HoldingGregHunt&theBomAccountable.pdf> (paragraphs 9 to 15) for the history of Australia's descent into what will soon become political chaos. These events over some 4 decades have led to the present situation, where politicians and Lysenkoliike pseudo-scientists have virtually extinguished the integrity of science.

This sad scenario is best exemplified by the Australian Bureau of Meteorology. See here <http://www.galileomovement.com.au/docs/jr/NonInteracticePosterForDecember1931.pdf>, here [SystemGeneratedFakeData](#) and here <http://www.galileomovement.com.au/docs/jr/WilliamCreekHeat.pdf>

Yet, we have a Minster for the Environment who appears to keep himself wilfully ignorant of the errors and mistakes that are being perpetrated under his auspices. He has effectively stopped or stonewalled any investigation into the BOM'S data management practices. Our opinion, which is not an uncommon one, is that the BOM's temperature record is seriously flawed and not suitable for policy decisions.

The insidious agenda that underpins the rationalisation of these 'faults' is best described by our close colleague Graham Williamson in his [correspondence](#) with MP Julie Bishop.

We fear that political, stability will not return under your leadership. On the contrary, it will probably descend into chaos. There is a move afoot among Australian voters. As we realise that we are sliding into socialism, or worse, our only hope is to activate for direct democracy. A concerted collective vote only for Independents or minor parties will be the first step towards it.

However, you have the power to prevent this chaos. If you care about the wishes of the silent majority you will return strongly to the mandate the silent majority gave to Tony Abbott. Please, set your preconceptions aside and frankly and fully facilitate an objective, science based investigation into, what the evidence indicates, is an expensive and destructive 'mistake'.

In closing, we are not sure why we have three lawyers running our country. However, if there is anything we have said to, or about you PM Malcolm Turnbull, or you MPs Greg Hunt and Julie Bishop, that you think is untrue, please inform us now by responding to this email. We love our country and all its flora and fauna. We write these letters because we believe that putting these, divisive issues on the public record and holding Australian citizens individually accountable for their actions is the best way to keep our country safe in a troubled world.

Respectfully Yours

Dr Judy Ryan
Dr Marjorie Curtis
